

**REMARKS**

The Office Action dated November 7, 2006 has been received and carefully studied.

The Examiner requires restriction between the inventions of Group I, claims 1-11, drawn to a system for regulating CSF flow, Group II, claims 12-16, drawn to a method of regulating CSF flow, and Group III, claims 17-21, drawn to an implanted system for maintaining a stable intraventricular pressure.

Applicants hereby elect Group I, claims 1-11.

Respectfully submitted,

  
Kevin S. Lemack
